- a. [REDACTED] advised me that in connection with the IG recommendation re DD/S and DD/P review of all Clandestine Services programs with view of terminating projects of questionable value, Commo is preparing two papers ((1) a station by station analysis of the workload vs. the group count and (2) a list of projects supported by Commo). After pulling this list together Commo will attempt to determine how much each project is costing and the number of personnel required for each project. They hope to have these papers in a couple of weeks.
